Thesis																	
Analysis and Req. specification Research Ruby and Rack Research Concurrency Research HTTP and TCP Research webservers Litterature review Specify requirements Choose development method																	
Design Overall design HTTP parser Logging Static file handler Dynamic file handler Rack interface																	
Development Setup gem and CLI HTTP parser Logging Static file handler Dynamic file handler Rack interface																	
Testing and Evaluation Benchmark w/ JRuby, Rubinius & YARV Yarn vs. Thin vs. Apache																	
Report Analysis Design																	
Implementation Testing/Evaluation Conclusion
